

## **Climate Change Summary Minute**

Guided by many Friends who have worked tirelessly over the past fifty years, Philadelphia Yearly Meeting adopts a yearly meeting-wide witness on climate change. This corporate ministry is broad and encompasses the work and witness of many people, communities, monthly meetings and organizations within the wider network of Quakers in the Philadelphia region and beyond. A yearly meeting-wide witness on climate change seeks to raise up as many different voices and actions as possible to make progress on the environmental and societal issues at the heart of the climate crisis.
